Have only played the game a little but I really like the atmosphere. The opening sequence is unique and the start of the game is eerie and intriguing. The one gripe I have is the difficulty navigating the menu screen. Other than that, the game seems interesting and I hope to play more!. I've never been more bored playing this game its is the definiton of KYS. Good game, make sure you have a friend to play it with. Otherwise finding an online match can be a bit slow.. 2/10 story

9/10 gameplay mechanics

3/10 level design

9/10 price

fell off the map twice

got stuck in a wall and i had to redo 15 mins of gameplay

<https://steamcommunity.com/sharedfiles/filedetails/?id=1728435407>. Controls are clunky and the pacing of the game wasn't enough to keep me engaged since it lacks gameplay depth. If you don't mind controls and if these kind of games are relaxing for you, then its not a bad buy for \$6 I suppose. But I would honestly rather play this kind of game on a mobile device than on Steam. This wasn't for me.. The game has really come a long way. A much higer production value compared to others of its kind.. its ok if your bank balance is larger than your common sense. pretty great

Very good and quite difficult puzzle game, with nice visuals which fit perfectly with it's wonderful and soothing ambient music!. Epic shoot'em all game experience. However....

Pro:

Well balanced game design

Rich challenge objectives

Various game completion methods

Built-in game recording system

Con:

Not friendly for multi-display player, if you want to change a objective display. Here's what u have to do: Press ALT + Enter switch to window mode then drag the game window to another display.

Cannot adjust volume in-game. (You have to do this in the Windows Volume Mixer) This has to blame the dev team.

I know the dev team put a lots effort in the game design. However, in terms of the user experience. It's just a disaster.

7/10 I will not recommend this game at this point.. Bought this game with a 90% off coupon. The price was brought down to a dollar. This is the Worst Game I have ever played. If you get the coupon just hand it to a sibling or friend as a gift.. Good Game Good Story. Deer Man Aproves.. Extremely cute game. Lots of neat puzzles and a decent range of them. Concept works and they even added a bonus frog in this version for you. I would love if they decide to make a few dlc with more frog\puzzles going on as well.. Great little game...my kids and I really enjoyed it. A nice point-and-click with hidden object elements. Very nice voice acting and bright, cheery graphics. Doesn't overstay its welcome.. Go ahead say what you want but I like this game. Now dont get me wrong there is ALOT of bugs but that is what beta is for. Not all devs can end up like Team Meat. Making a game is hard work and I think this dev team is doing ok. If you dont like bugs why buy and Early Access game? I look forward to see what this team does next.
